Subject: RE: EPA Comments of the District's PCB Plan

Tom – I'm stuck on a call right now that is running long and hoping it is ending in 15 mins or so and will call you as soon as I get off the call.

Thanks in advance for your flexibility.
Doug

Subject: RE: EPA Comments of the District's PCB Plan

Hello Doug:

Tom will be able to talk with you after 1:00 PM today.

Please confirm a convenient time after 1:00 PM today when you are also available to go over the issues in your message.

Thank you for your courtesies.

Sincerely,
Carmen

Carmen D. Santos
PCB Coordinator
USEPA Region 9 (LND-4-1)
Land Division

Subject: FW: EPA Comments of the District's PCB Plan
Importance: High

Tom,

Thank you for your comments. Carmen Santos has reached out to Eric Wood to set up a conference call on either Tuesday June 17 or Wednesday June 18. The District would like to attend the call as well and the mutually available window for us is between 9:30 to 12:30 on the 17th.

In your letter, EPA also requested notification at least one week prior to the beginning of the planned summer Building Inspections that we are moving forward with in accordance with EPA's concurrence on the proposed Building Inspections and BMPs at Malibu High School (MHS) (and which will also be done at Juan Cabrillo Elementary School (JCES)) per our Draft Comprehensive Plan. These are scheduled to begin next Monday, June 16th. As there is a good deal of work to be done, the work is being done on a building by building rolling basis in accordance with the attached schedule (though note schedule is subject to change depending on what happens in the field during the work).

As you will note in the attached schedule, sampling is scheduled to be conducted on June 18th. We do need to start sampling then in order to accomplish all the work that is being planned during the limited summer schedule available to us before the resumption of classes this fall. Therefore, ENVIRON prepared the attached document to provide additional information on the selection of representative rooms for air/wipe sampling to be done at MHS (and also at JCES) during the summer of 2014 (June 16 through August 8) as requested by EPA in its June 4, 2014 letter to SMMUSD (specifically, the request related to the sampling plan for MHS and comments A.2 and A.3). Given the attached schedule, we wanted to get this to you sooner than the EPA requested conference call on the 17th, and we request EPA's review of this information this week as we would like to confirm EPA's concurrence with this approach by Thursday, June 12th at the latest.

Please do not hesitate to contact me with any questions or if you would like to discuss. We look forward to collaboratively working with EPA to complete the necessary summer work at MHS (and JCES).

Regards,
Doug

Subject: EPA Comments of the District's PCB Plan

Dear Superintendent Lyon,

Attached are EPA's comments on the "Comprehensive PCB-Related Building Materials Inspection, Management, and Removal Plan for Santa Monica-Malibu Unified School District." Per the attached letter, please contact Carmen Santos to schedule a call to discuss these comments. Steve Armann is out on vacation until June 16. During his absence, feel free to contact me or Carmen.

Sincerely,

Tom Huetteman, Assistant Director
RCRA Branch, Land Division, USEPA Region 9
